

SERVICE AREA

This map illustrates the 10 telephone service areas in California. Siskiyou Telephone and AT&T, as well as other independent telephone and long distance companies, offer calling within the boundaries of a service area. **Siskiyou Telephone operates within the Chico Area.**

YOUR SERVICE AREA

Siskiyou Telephone and AT&T handle calls which begin and end within the Chico Service Area which is part of the 530 area code. However, if your call begins within a Service Area and ends outside that area, it will be handled by a long distance company. Long distance companies may also handle calls within your service area. See page 10.

Siskiyou Telephone will continue to provide the billing for local and long distance service within the Chico Service Area.

The prefix locations within your service area are listed on the following pages. If the community and number (prefix) you want to call is NOT listed on the following pages, that community is OUTSIDE your service area.

There is not a toll charge between the following exchanges:

465-496	Oak Knoll/Hamburg
467-468	Etna/Fort Jones
469, 509, 609, 627	Somes Bar/Orleans
